

MCA Awards 2018 Finalist

Consulting Excellence Award for Ethical Behaviour

Arcadis

We all value ethical behaviours that promote respect, fairness and inclusion. Through Arcadis' Equality Programme we live our ethical behaviour principles. The programme is recognising and tackling inequality, giving a platform for industry collaborations seeking solutions and bringing passionate people together with a common vision to Embrace our Difference. Determined to make a difference, members of our Faith and Race workstreams came together to raise the lid on why people find it so hard to accept Faith in the workplace. An industry event during Interfaith Week - inspiring, moving and hard hitting raised the bar on how we embed ethical behaviours to create a great place to work.
