Consulting Excellence Award for Ethical Behaviour

PPL

“PPL 10” describes how, after 10 years of successful organisational growth and development, award-winning consultancy PPL has been using Consulting Excellence to build its vision and plans for the next years – “fuelled” by ethical approaches across its work and broader place in society.

Underpinned by investment in staff, in working with the social entrepreneurial and third sector, and in PPL’s charitable partnerships, PPL10 is challenging and empowering people at every level of the organisation to grow their impact, and in doing so, helping to re-define PPL for the next10 years.
