#### **KPMG with Civil Service Learning**

In early 2016, Civil Service Learning (CSL) commissioned KPMG to design and deliver a Learning and Development (L&D) curriculum to meet the needs of a Civil Service fit for the 21st century.

Eleven months later, on time and in budget, KPMG delivered the largest L&D project in UK Government history.

Having assembled a consortium of 30 leading L&D specialist organisations, and working hand in hand with CSL, KPMG created a curriculum designed to help ensure that 400,000 civil servants have the skills and capabilities required to meet the needs of modern day British society.
