# THE VALUE OF THE CHARTERED MANAGEMENT CONSULTANT (ChMC) AWARD FOR CLIENTS

**THE CHARTERED MANAGEMENT CONSULTANT (ChMC) AWARD IS A GUARANTEE THAT THE CONSULTANTS YOU HAVE HIRED HAVE REACHED THE HIGHEST STANDARDS OF SERVICE IN THEIR PROFESSION.**

## WHY?

It is the professional benchmark of a consultant's abilities. It assures you quality of service, expertise, and experience. It lets you know you have the services of a consultant who has met the highest standards in the Management Consultancy profession.

## WHAT IS ChMC?

The award was created by the Management

Consultancies Association (MCA), the trade body for the UK's leading consulting firms, in partnership with the Chartered Management Institute (CMI), the UK's leading Chartered professional body for management and leadership. Built by the sector and shaped by clients, the CMI and MCA created the competency framework to define the highest standards in the profession against which every consultant seeking to be Chartered is measured.

## WHAT DO YOU GET IF YOU EMPLOY A CHARTERED MANAGEMENT CONSULTANT?

**Chartered Management Consultants must prove they serve clients to the highest standards. That they can build sustainable business relationships of mutual confidence, trust, and respect.**

## IMPACT

Creating change that delivers results for clients in the short, medium and long term. Demonstrating that their actions lead to better outcomes.

It is the only award that really does measure impact for the clients' benefit.

## VALUES, ETHICS AND BEHAVIOURS

Chartered consultants are trusted advisors, they must act in the best interests of clients and have the evidence to prove they have done so to become Chartered. Chartered consultants ensure their organisation's and client's ethics codes are

upheld. They respect people with whom they work, create positive impact in the context of the client operating environment and take into account social and governance factors.

## LEADERSHIP AND MANAGEMENT

To be Chartered a consultant must show they can inspire trust and command respect. They operate in an ethical and inclusive manner and demonstrate the ability to influence, engage and empathise with those around them, understanding the purpose and direction of the client organisation. They must also value developing diversity and inclusion within their own firm.

## CHARTERED FOCUSES RIGOROUSLY ON:

### EXPERIENCE

Chartered requires a minimum of five years' experience within the profession while there are other routes for consultants who have a minimum of seven years, and in many cases decades, of experience.

### LIFELONG DEVELOPMENT

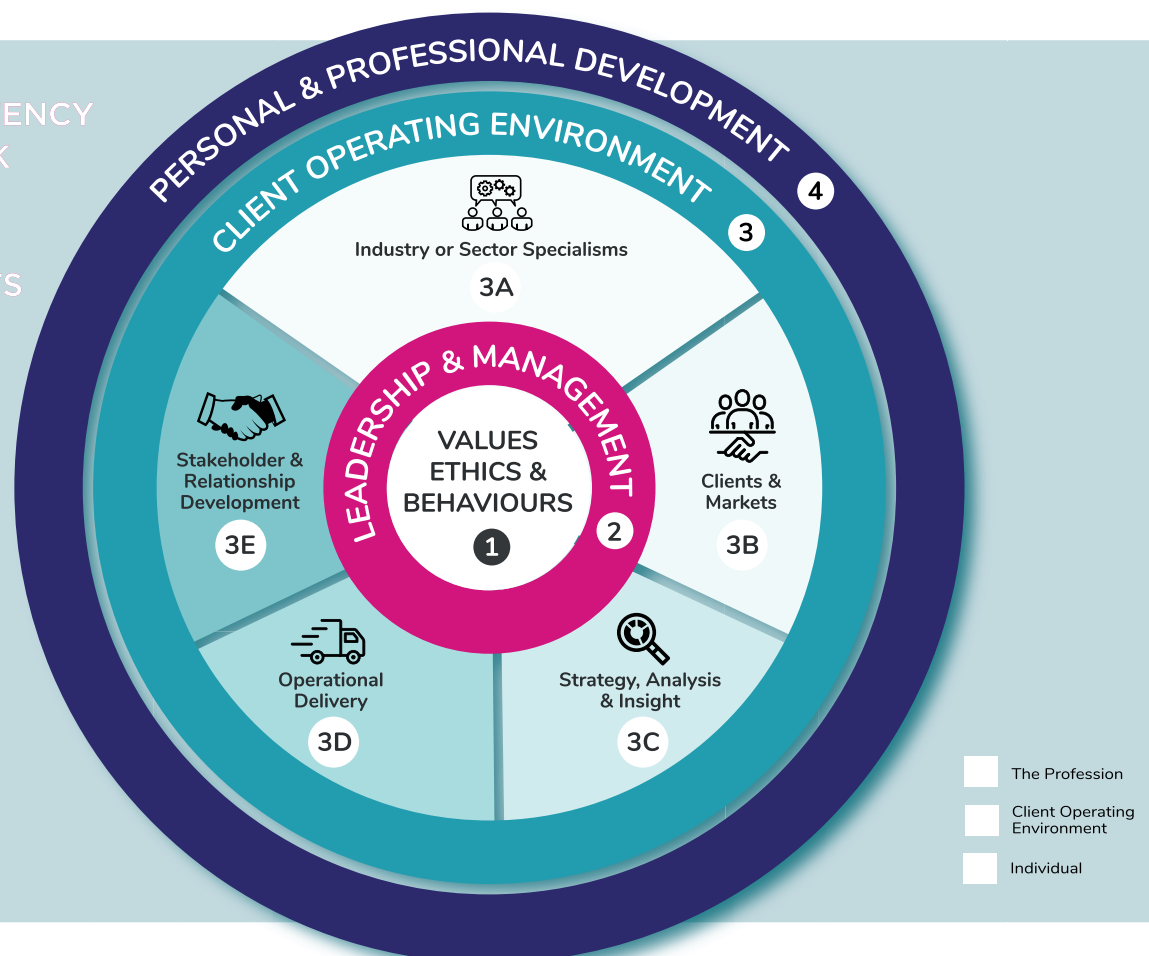

Chartered is more than a snapshot of a consultant's career and achievements, substantial though they must be. To be awarded Chartered a consultant must commit to lifelong personal and professional development to ensure that their skills and abilities are always cutting edge.

With substantial government endorsement, an increasing number of firms and clients are signing

up to get involved with the ChMC award every day. Already more than 50 firms are engaged with over 4,000 consultants on the journey to being chartered and the numbers are growing. Many early adopters have recently announced plans to scale up their numbers of employees becoming Chartered. [CLICK HERE](#) to find out who's already involved.

The ChMC competency framework sets a standard of the skills and behaviours of management consultants. By becoming Chartered, consultants have an independent professional stamp of approval on not only their measurable skills and experience, but their commitment to the industry, lifelong development and to their own high-quality of work.
