

Managementors Limited is proud to be a member of the Management Consultancies Association (MCA). Being a member demonstrates that we are recognised as able to meet stringent criteria and adhere to the MCA code of practice, meaning our customers can be assured we provide nothing less than top tier services.

As a member we are actively involved in the opportunities available to us; participating in debates, events, reports and much more. It is a great honour to be involved with other members, as well as contributing to the UK consulting industry as a whole.

With the new Consulting Excellence Framework established by the MCA, we have adopted the principles of Ethical Behaviour, Professional Development and Client Service and Value, which are integral to how we operate as a business.

Ethical Behaviour – We are responsible and good citizens. We have recently carried out charity events and have organised activities near to the office, supporting the local community. We recycle where possible and encourage sustainable travel. We conduct our business ethically and act with integrity at all times, seeking feedback from clients after every project.

Client Service and Value – We provide excellent consulting services which deliver the outcomes clients seek and need; agreeing before, throughout and after projects that we are achieving their expectations. We review our suppliers regularly, to ensure we receive the service we expect, and that we are acting in a mutually beneficial partnership with them.

Professional Development – Through a clear development programme, underpinned by bi-annual performance reviews, we continuously work towards developing our staff. Both our Graduate Development and Project Manager Development Programmes have seen staff progress through the company, whilst building on their skills. We have supported members of staff through degrees and coaching courses, whilst encouraging active participation in MCA events to broaden their skills.
